SUMMARY

Senior 3D Artist with 14+ years of experience delivering photorealistic architectural and product visualization for global clients, spanning 3ds Max, Maya, V-Ray, and Substance Painter production pipelines. Deep PBR and texturing expertise using Substance Painter and Substance Sampler, end-to-end CAD-to-render workflows, and hands-on Unreal Engine 5 experience in lighting and rendering.

CORE SKILLS

Modeling | Texturing | Lighting | Rendering | PBR Workflow | Hard-Surface Modeling | Real-Time & Offline Rendering | CAD-to-Render Conversion

SOFTWARE & TOOLS

3ds Max | V-Ray | Substance Painter | Substance Sampler | Adobe Photoshop | Autodesk Fusion 360 | Unreal Engine 5 | 3DEXPERIENCE Platform CATIA Beginner (in progress)

PROFESSIONAL EXPERIENCE

3D Artist

Dec 2023 – Present

Dassault Systèmes (3DEXCITE)

- Delivered photorealistic lighting and rendering for automotive product visualization for General Motors, taking prepped CAD data through to final render
- Work within a Maya + V-Ray production pipeline on automotive client visualization projects
- Building 3DEXPERIENCE Platform CATIA proficiency through company-provided training, extending CAD-to-render capability
- Delivered high-resolution automotive product images for General Motors brands including Chevrolet, Buick, and Cadillac, working on diverse projects such as Exterior & Interior Build Your Own configurators and 360s

3D Generalist

Jan 2018 – Nov 2023

House of Blue Beans

- Delivered photorealistic PBR assets for visualization, proof-of-concept, advertising, and packaging work for clients including Lowe's, Temple & Webster, WYZE, and Target Corporation
- Textured high-quality PBR assets for rendering across multiple client pipelines
- Produced photorealistic product renders from concept through final delivery
- Owned quality control and assurance for PBR asset output
- Built and rendered visualization scenes across concurrent client engagements

Texturing / CGI Artist

Aug 2015 – Dec 2018

Target India (contract via House of Blue Beans)

- Embedded on-site with Target India as a contract 3D artist via House of Blue Beans
- Created PBR assets for architectural visualization projects with 3ds Max and V-Ray

Architectural Visualizer

Jan 2012 – Jul 2015

Unitech Graphix

- Converted AutoCAD layouts into renderable 3D models for interior and exterior architectural projects
- Set up texturing, lighting, and rendering for interior and exterior architectural shots

SELECTED PERSONAL PROJECTS

- Complex Fresnel Metals in UE5 — custom HLSL implementation of physically accurate Fresnel shading (like Siger Complex Fresnel for V-Ray) for metal finishes including gold, titanium, and other metals
- Duesenberg H-Direct V-16 aero engine reconstruction — exploring a full hard-surface pipeline: Autodesk Fusion 360 - 3ds Max - Substance Painter - V-Ray, referencing the Smithsonian's archival record
- Automotive components modeling in Fusion 360, including axles, shock absorbers, and starter motors

EDUCATION & CERTIFICATIONS

Advanced Diploma in 3D Animation (AD3D+) — Maya Academy of Advanced Cinematics, 2010

3DEXPERIENCE Platform CATIA (Mechanical Design Beginner) — in progress (Dassault Systèmes-provided training)
